1. **Navigate to the *Products* tab located on the sidebar under *Resources*.**
2. **From here you can view details of all of the company's available products**
3. **The products list can be ordered by SKU, Supplier, Description, Cost Price, Retail Price, and RSP by clicking on the respective column's headers**
4. **You can view more specific details of a product by clicking on that product's *SKU*, and you can find the companies supplier of that product by clicking on the products *Supplier***

Using the Products tab:

1. **Creating a product (Manager and Admin only): From the product's tab, go to the top right of the screen and click on *Create***
 - a. **Define the new products details**
 - b. **Click Save Changes**
2. **Editing a product: From the products tab, click on a product's SKU and then on Actions in the top right.**
 - a. **Select *edit***
 - b. **Change the products details as needed**
 - c. **Click Save Changes**

Navigating a specific product:

1. **After clicking on a product's SKU from the products tab, you will find a page with additional information on that product**
 - a. **A graph indicating the monthly sales of that product over the past year, and a forecast of the estimate sales in the next 3 months**
 - b. **A manual forecast (i.e. a planned estimate of sales based on a recently developed sales plan for the business) can be created by clicking on *Actions* in the top right and then clicking *Manual Forecast***
 - c. **Define the new forecasts details**
 - d. **Click Save Changes**
 - e. **The forecast will then be calculated and displayed on the graph**
 - f. **Individual tabs leading to the Sales, Purchases, and Supplier of that product can be clicked.**
 - g. **Clicking *Account* will show that products basic details**
 - h. **An orange display indicating the excess stock available of that product/potential stock out of that product.**
 - i. **A blue display indicating the required stock of that product (only shows if there is no excess stock)**
 - j. **Four blue buttons at the bottom of the screen are downloads to:**

- 
- i. The recap of that product over the last year
 - ii. All sales of that product throughout the company's history
 - iii. All purchases of that product throughout the company's history
 - iv. All standing open Purchases of that product
 2. The Supplier of the product can be viewed by clicking on the name of that products supplier

Accessing the Suppliers tab

1. Login
2. Navigate to the *Suppliers* tab located on the sidebar under *Resources*
3. From here you can view details of all of the company's suppliers
4. The suppliers list can be ordered by Name, Telephone, Email, and Address by clicking on the respective column's headers
5. You can view more specific details of a supplier by clicking on that suppliers name

Using the Suppliers tab:

1. Creating a supplier (Manager and Admin only): From the suppliers tab, go to the top right of the screen and click on *Create*
 - a. Define the new suppliers details
 - b. Click Save Changes
2. Editing a supplier (Manager and Admin only): From the products tab, click on a product's name and then on Actions in the top right
 - a. Select *edit*
 - b. Change the products details as needed
 - c. Click Save Changes

Navigating a specific supplier:

1. After clicking on a supplier's name from the supplier tab you will find a page with additional information on that supplier
 - a. Individual tabs leading to the Purchases and Products of that supplier can be clicked.

Accessing the Purchases tab

1. Login
2. Navigate to the *Purchases* tab located on the sidebar under *Transactions*
3. From here you can view details of all of the company's purchases
4. The purchases list can be ordered by Purchase number, date created, and the time of the transaction by clicking on the respective columns headers

Using the Purchases tab:

1. **Creating a purchase:** From the purchases tab, go to the top right of the screen and click on *Create*
 - a. Define the new purchases details
 - b. Click Save Changes

Navigating a specific purchase:

1. After clicking on a purchases number from the purchases tab, you will find a page with additional information on that purchase
 - a. In the top right, clicking on *Actions* and then on *External Invoice* will trigger a popup. The popup shows a scanned invoice that the company would receive when a purchase arrives

Accessing the Open Purchases tab

1. Login
2. Navigate to the *Open Purchases* tab located on the sidebar under *Transactions*
3. From here you can view details of all of the company's standing open purchases
4. The purchases list can be ordered by Purchase number, date created, and the time of the transaction by clicking on the respective columns headers

Using the Open Purchases tab:

1. Same functionality as under the Purchases tab

Navigating a specific open purchase:

1. Same functionality as under the Purchases tab

Accessing the Sales tab

1. Login
2. Navigate to the *Sales* tab located on the sidebar under *Transactions*
3. From here you can view details of all of the company's sales over the course of its history
4. The sales list can be ordered by Sale number, and date created, by clicking on the respective columns headers

Navigating a specific sale:

1. After clicking on a sales number from the *Sales* tab, you will find a page with that sales receipt
2. Clicking a sales customer will take you the details page of that customer

}
```

Installation Guide (Web - Standalone)

Requirements

- Git
- PHP 7.1
- Nginx
- MySQL 5.7
- Composer
- Python 2.7
- Anaconda

Installation

1. **Install *Git*, *Nginx*, *MySQL*, *Composer*, *Python* and *Anaconda* as a standard installation**
2. **Create a Firewall Rule to Allow Nginx**
3. **Install PHP-FPM and PHP-MySQL**
4. **Update Nginx Site configuration under `nginx/sites-available/default` to match the following:**

```
server {  
    listen 80 default_server;  
    listen [::]:80 default_server;  
    root project_public_directory;  
    index index.php index.html index.htm index.nginx-debian.html;  
    server_name server_domain_or_IP;  
    location / {  
        try_files $uri $uri/ =404;  
    }  
  
    location ~ \.php$ {  
        include snippets/fastcgi-php.conf;  
        fastcgi_pass unix:/run/php/php7.0-fpm.sock;  
    }  
  
    location ~ /\.ht {  
        deny all;  
    }  
}
```

Deployment

1. **Git clone the project's repository into the project directory defined above.**
2. **cd into the project's directory.**
3. **Run `php artisan migrate:fresh --seed` command the seed the initial data**
4. **Restart nginx server**
5. **Access the site at `localhost:8080`**

Installation Guide (Web - Virtual Machine)

Requirements

- Laravel Homestead 5+
- VirtualBox 5.1+
- Vagrant 2+
- Git
- Anaconda

Installation

1. Install *VirtualBox*, *Vagrant* and *Git* as a standard installation
2. Open Git Console and run the following commands:
 - a. `vagrant box add laravel/homestead`
 - b. `cd ~`
 - c. `git clone https://github.com/laravel/homestead.git Homestead`
 - d. `cd Homestead`
 - e. `bash init.sh`
3. Open `Homestead.yaml` file under Homestead installation directory
 - a. Update the folders mapping to match project's directory
 - b. Update sites mapping to match project's directory and URL
4. Open OS's hosts file and add host location
 - a. `192.168.10.10 project.app`
5. Start VM by running the following command under the Homestead directory
 - a. `vagrant up`
6. Install Anaconda by SSH-ing into the Virtual Machine by using `vagrant ssh`

More information on the setup can be found at <https://laravel.com/docs/5.5/homestead>

Installation Guide (Mobile Application)

Requirements

- **Android Studio**
- **Android SDK**
- **Android Device (API 15 or higher)**

Installation

1. **Install *Android Studio* and *Android SDK* as a standard installation**
2. **Import Repository from Github**
3. **In the `RESTClient` class, located in the `com.projects.paradox.apollo_ui.utilities` directory, update `BASE_URL` string to match URL of Web API**
4. **Build and Run Project**
